## Responsibility for the consolidated and unconsolidated financial statements

Pursuant to the Accounting Act of the Republic of Croatia, the Management is responsible for ensuring that consolidated and unconsolidated financial statements are prepared for each financial year in accordance with International Financial Reporting Standards ('IFRS'), as adopted by the European Union, which provide a true and fair view of the financial position and results of operations of M San Grupa d.d. ("the Company") and its subsidiaries ("the Group") for that period.

After making appropriate enquiries, the Management has a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future. For this reason, the Management continues to prepare the financial statements on a going-concern basis.

In preparing consolidated and unconsolidated financial statements, the responsibilities of the Management Board include ensuring that:

- suitable accounting policies are selected and then applied consistently;
- judgments and estimates are reasonable and prudent;
- applicable accounting standards are followed, subject to any material departures disclosed and explained in the financial statements; and
- financial statements are prepared under the going-concern assumption.

The Management is responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time, the financial position of the Company and the Group and must also ensure that the financial statements comply with the Croatian Accounting Act. The Management is also responsible for safeguarding the assets of the Company and of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

On behalf of the Management Board:

Miroslav Huzjak   
President of the Management Board

## INDEPENDENT AUDITOR'S REPORT

### To the Owner of M San Grupa d.d., Zagreb:

We have audited the accompanying consolidated and unconsolidated financial statements of the Company M San Grupa d.d., Zagreb ("the Company") and its subsidiaries ("the Group"), which comprise the consolidated and unconsolidated statement of financial position as at 31 December 2014, and the consolidated and unconsolidated statements of profit or loss and other comprehensive income, consolidated and unconsolidated statements of changes in shareholder's equity and consolidated and unconsolidated statements of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of consolidated and unconsolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as Management determines is necessary to enable the preparation of consolidated and unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Company's and the Group's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### *Bases for qualified opinion*

#### *(i) Expired and doubtful receivables and prepayments for inventories*

At 31 December 2014 trade receivables and prepayments made, which amount in total to HRK 11,864 thousand for the Company and HRK 17,128 thousand for the Group, show indications of impairment. The Company and the Group did not assess the recoverability of the receivables in accordance with IAS 39 'Financial Instruments: Recognition and Measurement'. As a result, we are not able to determine the related potential effect on the financial statements.

#### *(ii) Investments in available-for-sale assets*

As disclosed in Note 21, 'Financial assets', the Company and the Group recognised investments in the units of Quaestus Private Equity Capital Fund in the amount of HRK 4,306 thousand, whereas the related revaluation reserve is reported in the negative amount of HRK 5,312 thousand and the related deferred tax assets in the amount of HRK 1,328 thousand. In previous year, the Company and the Group did not charge the permanent impairment to profit or loss and other comprehensive income in accordance with IAS 39 *Financial Instruments: Recognition and Measurement* in the amount of HRK 5.175 thousand and HRK 137 thousand in current year. As a result, as at 31 December 2014, the revaluation reserve balance is understated by HRK 5,312 thousand, the balance of deferred tax assets is overstated by HRK 1,328 thousand, retained earnings balance is overstated by HRK 6,469 thousand, and profit for the year ended 31 December 2014 is overstated by HRK 171 thousand.

#### *(iii) Investments in subsidiaries*

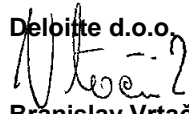

As disclosed in Note 21, 'Financial assets', the Company presented the following investments in subsidiaries: HRK 10,310 thousand in M San Servis d.o.o., for which indications of impairment existed at 31 December 2014. At 31 December 2014 the Company did not assess whether the carrying amounts of the investments were recoverable, as required by IAS 36 *Impairment of Assets*. Therefore, we were not able to determine the potential effect of this matter on the accompanying financial statements.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### *Qualified opinion*

In our opinion, except for the effects of the matters described in the *Basis for qualified opinion* paragraph, the accompanying consolidated and unconsolidated financial statements present fairly, in all material respects, the financial position of the Company and of the Group at 31 December 2014, and their financial performance and their cash flows for the year then ended in accordance with International Financial Reporting Standards adopted by the European Union.

Deloitte d.o.o.

### 2. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (the „IFRS“)

#### ***Standards and Interpretations effective in the current period***

The following standards, amendments to the existing standards and interpretations issued by the International Accounting Standards Board (IASB) and adopted by the European Union are effective for the current period:

- **IFRS 10 “Consolidated Financial Statements”**, adopted by the European Union on 11 December 2012 (effective for annual periods beginning on or after 1 January 2014),
- **IFRS 11 “Joint Arrangements”**, adopted by the European Union on 11 December 2012 (effective for annual periods beginning on or after 1 January 2014),
- **IFRS 12 “Disclosures of Interests in Other Entities”**, adopted by the European Union on 11 December 2012 (effective for annual periods beginning on or after 1 January 2014),
- **IAS 27 (revised in 2011) “Separate Financial Statements”**, adopted by the European Union on 11 December 2012 (effective for annual periods beginning on or after 1 January 2014),
- **IAS 28 (revised in 2011) “Investments in Associates and Joint Ventures”**, adopted by the European Union on 11 December 2012 (effective for annual periods beginning on or after 1 January 2014),
- **Amendments to IFRS 10 “Consolidated Financial Statements”, IFRS 11 “Joint Arrangements” and IFRS 12 “Disclosures of Interests in Other Entities” – Transition Guidance**, adopted by the European Union on 4 April 2013 (effective for annual periods beginning on or after 1 January 2014),
- **Amendments to IFRS 10 “Consolidated Financial Statements”, IFRS 12 “Disclosures of Interests in Other Entities” and IAS 27 “Separate Financial Statements” – Investment Entities**, adopted by the European Union on 20 November 2013 (effective for annual periods beginning on or after 1 January 2014),
- **Amendments to IAS 32 “Financial instruments: presentation” – Offsetting Financial Assets and Financial Liabilities**, adopted by the European Union on 13 December 2012 (effective for annual periods beginning on or after 1 January 2014),
- **Amendments to IAS 36 “Impairment of assets” - Recoverable Amount Disclosures for Non-Financial Assets**, adopted by the European Union on 19 December 2013 (effective for annual periods beginning on or after 1 January 2014),
- **Amendments to IAS 39 “Financial Instruments: Recognition and Measurement” – Novation of Derivatives and Continuation of Hedge Accounting** (effective for annual periods beginning on or after 1 January 2014).

The adoption of these amendments to the existing standards has not lead to any changes in the Company's or Group's accounting policies.

**2. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (the „IFRS“) (CONTINUED)**

***Standards and Interpretations issued by IASB and adopted by the EU but not yet effective***

At the date of authorization of these financial statements the following standards, amendments to the existing standards and interpretations issued by IASB and adopted by the European Union were in issue but not yet effective:

- **Amendments to various standards “Improvements to IFRSs (cycle 2010-2012)”** resulting from the annual improvement project of IFRS (IFRS 2, IFRS 3, IFRS 8, IFRS 13, IAS 16, IAS 24 and IAS 38) primarily with a view to removing inconsistencies and clarifying wording - adopted by the European Union on 17 December 2014 (amendments are to be applied for annual periods beginning on or after 1 February 2015),
- **Amendments to various standards “Improvements to IFRSs (cycle 2011-2013)”** resulting from the annual improvement project of IFRS (IFRS 1, IFRS 3, IFRS 13 and IAS 40) primarily with a view to removing inconsistencies and clarifying wording - adopted by the EU on 18 December 2014 (amendments are to be applied for annual periods beginning on or after 1 January 2015),
- **Amendments to IAS 19 “Employee Benefits” - Defined Benefit Plans: Employee Contributions** - adopted by the European Union on 17 December 2014 (effective for annual periods beginning on or after 1 February 2015),
- **IFRIC 21 “Levies”** adopted by the European Union on 13 June 2014 (effective for annual periods beginning on or after 17 June 2014).

***Standards and Interpretations issued by IASB but not yet adopted by the EU***

At present, IFRS as adopted by the EU do not significantly differ from regulations adopted by the International Accounting Standards Board (IASB) except from the following standards, amendments to the existing standards and interpretations, which were not endorsed for use as at the date of publication of the financial statements:

- **IFRS 9 “Financial Instruments”** (effective for annual periods beginning on or after 1 January 2018),
- **IFRS 14 “Regulatory Deferral Accounts”** (effective for annual periods beginning on or after 1 January 2016),
- **IFRS 15 “Revenue from Contracts with Customers”** (effective for annual periods beginning on or after 1 January 2017),

**3. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (the „IFRS“) (CONTINUED)**

***Standards and Interpretations issued by IASB but not yet adopted by the EU (continued)***

- **Amendments to IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures”** - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IFRS 10 “Consolidated Financial Statements”, IFRS 12 “Disclosure of Interests in Other Entities” and IAS 28 “Investments in Associates and Joint Ventures”** - Investment Entities: Applying the Consolidation Exception (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IFRS 11 “Joint Arrangements”** – Accounting for Acquisitions of Interests in Joint Operations (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IAS 1 “Presentation of Financial Statements”** - Disclosure Initiative (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IAS 16 “Property, Plant and Equipment” and IAS 38 “Intangible Assets”** - Clarification of Acceptable Methods of Depreciation and Amortisation (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IAS 16 “Property, Plant and Equipment” and IAS 41 “Agriculture”** - Agriculture: Bearer Plants (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IAS 27 “Separate Financial Statements”** - Equity Method in Separate Financial Statements (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to various standards “Improvements to IFRSs (cycle 2012-2014)”** resulting from the annual improvement project of IFRS (IFRS 5, IFRS 7, IAS 19 and IAS 34) primarily with a view to removing inconsistencies and clarifying wording (amendments are to be applied for annual periods beginning on or after 1 January 2016).

The Company and the Group anticipates that the adoption of these standards, revisions and interpretations will have no material impact on the financial statements of the Company and the Group in the period of initial application.

## Notes to the consolidated and unconsolidated financial statements (continued)

For the year ended 31 December 2014

*(all amounts are expressed in thousands of kunas)*

---

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Statement of Compliance

These consolidated and unconsolidated financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the European Union.

#### Basis of preparation

The consolidated and unconsolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments that are measured at revalued amounts or fair values, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for assets. Comparative information have been restated, where necessary, in order to be aligned with the figures presented for current year. Therefore, the Company and the Group have recognized all credit notes from suppliers within the cost of goods solds (note 8), and all credit notes issued to customers within sales revenue (note 5), while in previous years portion of received and issued credit notes was recognised in Other operating income and Other operating expense. Specified items have been reclassified in the Statement of profit and loss and other comprehensive income in such a way to be aligned with the 2014 depiction.

The principal accounting policies are set out below.

#### Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Basis of consolidation (continued)**

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance

#### Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. When assets of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the relevant assets (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable IFRSs. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IAS 39 Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate or a jointly controlled entity.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Business combinations**

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 “Income Taxes” and IAS 19 “Employee Benefits” respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2 “Share-based Payment” at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 „Non-current Assets Held for Sale and Discontinued Operations“ are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another IFRS. When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Business combinations (continued)**

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with IAS 39, or IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*, as appropriate, with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of. If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

#### **Goodwill**

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see note above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss in the consolidated statement of profit or loss and other comprehensive income. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

The Group's policy for goodwill arising on the acquisition of an associate is described in note below.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Investments in associates and joint ventures**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with IFRS 5. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of IAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

## Notes to the consolidated and unconsolidated financial statements (continued)

For the year ended 31 December 2014

*(all amounts are expressed in thousands of kunas)*

---

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Investments in associates and joint ventures (continued)

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture, or when the investment is classified as held for sale. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with IAS 39. The difference between the carrying amount of the associate or joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

Gains and losses on transactions between a company which is a member of the Group and the associate or joint venture within the Group in the consolidated financial statements of the Group are recognized only to the extent of interests in the associate or joint venture that is not related to the Group.

#### Revenue recognition

Revenue is generated from the sale of goods and provision of services.

Revenue is measured at the fair value of the consideration received or receivable.

i) Service sales

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. The stage of completion of the contract is determined as follows:

- income from partially performed services (those provided over several accounting periods) is recognised by reference to the stage of completion (measured based on the proportion of actual costs incurred relative to the total budgeted costs).

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Revenue recognition (continued)

i) Service sales (continued)

- Revenue from time and material contracts is recognised at the contractual rates as labour hours and direct expenses are incurred.

ii) Sales of goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- the Group and the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group and the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of the revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred on those transactions can be measured reliably.

#### Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established, provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

## Notes to the consolidated and unconsolidated financial statements (continued)

For the year ended 31 December 2014

*(all amounts are expressed in thousands of kunas)*

---

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

i) The Group as lessor

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on the straight - line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight - line basis over the lease term.

ii) The Group as lessee

Assets held under finance leases are initially recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs. Contingent rentals are expensed in the period in which they arise.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals are expensed in the period in which they arise.

#### Foreign currencies

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purposes of consolidated financial statements, the results and financial position of each group entity are expressed in Croatian kunas (HRK), since this is the functional currency of the parent company and presentation currency of the consolidated financial statements.

## Notes to the consolidated and unconsolidated financial statements

For the year ended 31 December 2014

*(all amounts are expressed in thousands of kunas)*

---

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Foreign currencies (continued)

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

The exchange rates applied as of 31 December 2014 and 2013 as well as the average rates applied in the translation of income and expense items are as follows:

| Currency | 31/12/2014 | Average rate<br>for 2014 | 31/12/2013 | Average rate<br>for 2013 |
|----------|------------|--------------------------|------------|--------------------------|
| RSD      | 15.74658   | 15.30953                 | 14.93890   | 14.90810                 |
| KM       | 0.25528    | 0.25618                  | 0.25607    | 0.25607                  |
| MKD      | 8.04629    | 8.06168                  | 8.11122    | 8.14670                  |
| EUR      | 7.661471   | 7.634434                 | 7.63764    | 7.57554                  |

Exchange differences are recognised in profit or loss in the period in which they arise, except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the entire or a part of the net investment.

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into Croatian kunas using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (attributed to non-controlling interests as appropriate).

## Notes to the consolidated and unconsolidated financial statements

For the year ended 31 December 2014

*(all amounts are expressed in thousands of kunas)*

---

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Foreign currencies (continued)

On the disposal of a foreign operation i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, a disposal involving loss of joint control over a jointly controlled entity that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation, all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Group are reclassified to profit or loss. All exchange differences previously attributable to non-controlling interests are derecognised but are not transferred to profit or loss.

In the case of a partial disposal that does not result in the Group losing control over a subsidiary that includes a foreign operation, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss.

For all other partial disposals of ownership interest in associates or jointly controlled entities that do not result in a change of the accounting basis, the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Goodwill and fair value adjustments on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rates of exchange.

#### Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

i) Current tax

The tax currently payable is based on the taxable profit for the year. Taxable profit differs from the net profit reported in the statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

ii) Deferred tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences, and deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

## Notes to the consolidated and unconsolidated financial statements

For the year ended 31 December 2014

*(all amounts are expressed in thousands of kunas)*

---

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Taxation (continued)

##### ii) Deferred tax (continued)

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

##### iii) Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

#### Property, plant and equipment

Plant and equipment are recognised as tangible fixed assets if their individual useful life exceeds one year and unit cost is over HRK 3,500. Plant and equipment are carried at cost, which includes all costs directly attributable to bringing an asset to a working condition for its intended use.

Any gain on disposal of an item of tangible assets is credited directly to income.

## Notes to the consolidated and unconsolidated financial statements

For the year ended 31 December 2014

(all amounts are expressed in thousands of kunas)

---

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Property, plant and equipment (continued)

The estimated useful lives and the applicable annual depreciation/amortisation rates for principal categories of property and equipment were as follows:

|                                     | Depreciation rates |            |
|-------------------------------------|--------------------|------------|
|                                     | 2014               | 2013       |
| Buildings                           | 2.50-3.00%         | 2.50-3.00% |
| Electronic equipment and software   | 25-50%             | 25-50%     |
| Equipment                           | 10-40%             | 10-40%     |
| Personal cars                       | 20-40%             | 20-40%     |
| Vehicles (other than personal cars) | 25-50%             | 25-50%     |
| Furniture and office equipment      | 20-50%             | 20-50%     |

On land owned no depreciation rate is applied.

#### Intangible assets

##### Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

##### Internally generated intangible assets - research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset; how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset;
- and the ability to measure reliably the expenditure attributable to the intangible asset during its development.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Intangible assets (continued)**

##### Internally generated intangible assets - research and development expenditure (continued)

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred. Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

##### Intangible assets acquired in a business combination

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

##### Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Depreciation rates for intangible assets amounted from 20-25% (2013: 20 - 25%).

#### **Impairment of tangible and intangible assets, excluding goodwill**

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Tangible assets recognised at historical cost are depreciated using the straight-line method over the useful life of an asset. Depreciation commences in the first months following the month in which an asset is put in use.

## Notes to the consolidated and unconsolidated financial statements

For the year ended 31 December 2014

*(all amounts are expressed in thousands of kunas)*

---

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Inventories**

Inventories are stated at the lower of cost and net realisable value. Under the applicable standards, inventories have been valued as follows:

- the cost of merchandise includes purchase price, import duties and other costs directly attributable to acquisition of merchandise. Merchandise on stock for wholesale purposes is carried at cost.
- The cost is determined using the FIFO method.
- Small inventory includes tools, plant and office fittings and similar items that are expected to be used for a period of up to one year, as well as assets not considered fixed assets.
- Small inventory, tyres and spare parts are fully expenses when put in use.
- The Company also determines the value of slow-moving and obsolete inventories, and makes an impairment allowance for such inventories by reference to their fair value.

#### **Trade receivables and given advances**

Trade receivables and prepayments are shown at amounts invoiced net of allowance for uncollectible amounts.

The Company and the Group provides for bad and doubtful receivables on the basis of the overall ageing structure of all receivables, as well as by reviewing individual significant amounts receivable.

#### **Cash and cash equivalents**

Cash and cash equivalents comprise of cash in hand and the balance on bank accounts.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

#### Financial assets

Financial assets are classified into the following specified categories: financial assets 'at fair value through profit or loss' (FVTPL), 'held-to-maturity' investments, 'available-for-sale' (AFS) financial assets and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

##### i) Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL.

##### ii) Financial assets at FVTPL

Financial assets are classified as at FVTPL when the financial asset is either held for trading or it is designated as at FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Financial assets (continued)

##### ii) Financial assets at FVTPL

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and IAS 39 permits the entire combined contract to be designated as at FVTPL.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'other gains and losses' line item. Fair value is determined in the manner described in note 48.

##### iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity dates that the Group has the positive intent and ability to hold to maturity. Subsequent to initial recognition, held-to-maturity investments are measured at amortised cost using the effective interest method less any impairment.

##### iv) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade and other receivables, bank balances and cash, and others [describe]) are measured at amortised cost using the effective interest method, less any impairment.

Interest income is recognised by applying the effective interest rate, except for short-term receivables when the effect of discounting is immaterial.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Financial assets (continued)**

v) Available-for-sale financial assets (AFS financial assets)

AFS financial assets are non-derivatives that are either designated as AFS or are not classified as (a) loans and receivables, (b) held-to-maturity investments or (c) financial assets at fair value through profit or loss.

Listed redeemable notes held by the Group that are traded in an active market are classified as AFS and are stated at fair value at the end of each reporting period. The Group also has investments in unlisted shares that are not traded in an active market but that are also classified as AFS financial assets and stated at fair value at the end of each reporting period (because the directors consider that fair value can be reliably measured). Fair value is determined in the manner described in note 40. Changes in the carrying amount of AFS monetary financial assets relating to changes in foreign currency rates (see below), interest income calculated using the effective interest method and dividends on AFS equity investments are recognised in profit or loss. Other changes in the carrying amount of available-for-sale financial assets are recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. When the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss.

Dividends on AFS equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established.

The fair value of AFS monetary financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate prevailing at the end of the reporting period. The foreign exchange gains and losses that are recognised in profit or loss are determined based on the amortised cost of the monetary asset. Other foreign exchange gains and losses are recognised in other comprehensive income.

AFS equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity investments are measured at cost less any identified impairment losses at the end of each reporting period.

vi) Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For AFS equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Financial assets (continued)

vi) Impairment of financial assets (continued)

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial assets, such as trade receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 60 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets that are carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

When an AFS financial asset is considered to be impaired, cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss in the period.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Financial assets (continued)**

vi) Impairment of financial assets (continued)

In respect of AFS equity securities, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. In respect of AFS debt securities, impairment losses are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

vii) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received..

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

On derecognition of a financial asset other than in its entirety (e.g. when the Group retains an option to repurchase part of a transferred asset), the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Financial liabilities and equity instruments

##### *Classification as debtor equity*

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

##### *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

##### *Other financial liabilities*

Other financial liabilities (including borrowings and trade and other payables) are initially recognised at fair value decreased for transaction cost.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

##### *Derecognition of financial liabilities*

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

#### Provisions

Provisions are recognised when the Group or the Company have a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Where the effect of discounting is material, the amount of the provision is the present value of the expenditures expected to be required to settle the obligation. Where discounting is used, the reversal of such discounting in each year is recognized as finance costs.

Provisions for termination benefits are recognised when the Group and the Company have committed to terminate employment contracts with its employees i.e. when it has a detailed formal plan to terminate employment agreements that is reasonably unlikely to be abandoned.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Warranty provision**

Warranty provisions, representing provisions for repairs and replacements within a warranty period, are determined based on the volume and cost of goods complained of as faulty (goods received for servicing) by groups of products.

The amount of provision is determined by applying an annual percentage of individual groups of faulty products covered by warranty (i.e. received for servicing) as a share in the total annual quantity of the individual products sold during the year, with the aggregate cost of the product group concerned taken as the basis.

Provisions are determined by groups of products and duration of the warranty period.

Warranty provisions are reversed upon the expiry of the underlying warranty period and credited to income for the year in which the warranty expires.

#### **Contingent liabilities**

Contingent liabilities have not been recognised in these financial statements. They are disclosed in the notes, unless the possibility of an outflow of resources embodying economic benefits is remote.

No contingent assets have been recognised in these financial statements. They are disclosed in the notes when the inflow of economic benefits becomes probable.

#### **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

#### **Events after the reporting date**

Post-year-end events that provide additional information about the Company's and the Group's position at the financial statements date (adjusting events) are reflected in the financial statements. Post-year-end events that are not adjusting events are disclosed in the notes when material.

#### **Accounting judgements and estimates**

In the application of the Company's and the Group's accounting policies, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on past experience and other factors that are considered to be relevant. Actual results may differ from those estimates. The estimates and underlying assumptions are continually reviewed. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future periods.

## Notes to the consolidated and unconsolidated financial statements (continued)

For the year ended 31 December 2014

(all amounts are expressed in thousands of kunas)

### 4. SEGMENT INFORMATION

As of 31 December 2014, reporting segments of the Group comprise several operating segments: Croatia, Bosnia and Herzegovina, Serbia, Montenegro, Macedonia and other countries.

Set out below is a breakdown of revenue and results of the Group by its reporting segments presented in accordance with IFRS 8. The presented sales comprise sales to third parties, intra-segment sales.

#### Group segment revenue and results

| 2014  | Croatia       | Bosnia and Herzegovina | Serbia       | Montenegro   | Macedonia  | Total         | Eliminations / Corrections | Total         |
|---|---------------|------------------------|--------------|--------------|------------|---------------|----------------------------|---------------|
| Sales less customer discounts and allowances              | 1,576,962     | 304,121                | 308,871      | 37,717       | 47,835     | 2,275,506     | (417,538)                  | 1,857,968     |
| Cost of goods sold less supplier discounts and allowances | (1,401,097)   | (259,878)              | (261,229)    | (33,150)     | (40,801)   | (1,996,155)   | 384,729                    | (1,611,426)   |
| Changes in inventory                                      | -             | 816                    | -            | -            | -          | 816           | -                          | 816           |
| Other operating income                                    | 2,668         | 1,678                  | 553          | 50           | 33         | 4,982         | (234)                      | 4,748         |
| Other operating expenses                                  | (140,949)     | (36,222)               | (41,073)     | (5,138)      | (6,125)    | (229,507)     | 32,273                     | (197,234)     |
| <b>Profit from operations</b>                             | <b>37,584</b> | <b>10,515</b>          | <b>7,122</b> | <b>(521)</b> | <b>942</b> | <b>55,642</b> | <b>(770)</b>               | <b>54,872</b> |
| Net finance expenses                                      | (15,365)      | (3,687)                | (4,479)      | (231)        | (334)      | (24,096)      | 1,245                      | (22,851)      |
| <b>Profit before taxes</b>                                | <b>22,219</b> | <b>6,828</b>           | <b>2,643</b> | <b>(752)</b> | <b>608</b> | <b>31,546</b> | <b>475</b>                 | <b>32,021</b> |

The difference between the sales revenue, the costs of goods sold and between other operating income and other operating expenses presented in the statement of profit or loss and the statement of other comprehensive income arises from the inability to allocate certain allowances granted to customers and those received from suppliers according to the classification of sales and cost of goods sold defined for the segmentation purposes. Therefore, they are included within other operating income and other operating expenses.

Notes to the consolidated and unconsolidated financial statements (continued)

For the year ended 31 December 2014

(all amounts are expressed in thousands of kunas)

**4. SEGMENT INFORMATION (CONTINUED)**

**Group segment revenue and results (continued)**

| 2013  | Croatia       | Bosnia and Herzegovina | Serbia       | Montenegro | Macedonia  | Total         | Eliminations / Corrections | Total         |

**19. GOODWILL**

|      | <b>2014</b>   | <b>2013</b>   |
|------|---------------|---------------|
| Cost | <u>45,671</u> | <u>45,666</u> |
|      | <b>45,671</b> | <b>45,666</b> |

|                                  | <b>2014</b>   | <b>2013</b>   |
|----------------------------------|---------------|---------------|
| <b>Cost</b>                      |               |               |
| Balance at beginning of the year | 45,666        | 45,648        |
| Effect of exchange differences   | <u>5</u>      | <u>18</u>     |
| <b>Balance at end of year</b>    | <b>45,671</b> | <b>45,666</b> |

At the end of the reporting period, the Group reviewed the recoverable amount of goodwill and is satisfied that the goodwill is not impaired.

**Allocation of goodwill to cash-generating units**

For the purposes of impairment test, goodwill has been allocated to the following cash-generating units:

|                          | <b>2014</b>   | <b>2013</b>   |
|--------------------------|---------------|---------------|
| KIM TEC BG               | 29,251        | 29,251        |
| KIM TEC BIH              | 8,201         | 8,201         |
| Pakom Kompani d.o.o.     | 6,714         | 6,714         |
| Poljoprivrednik Derventa | <u>1,505</u>  | <u>1,500</u>  |
| <b>Total</b>             | <b>45,671</b> | <b>45,666</b> |

The recoverable amounts of the cash-generating units have been determined on the basis of the value in use, which is based on cash flow projections on the basis of five-year budgets approved by the Management Board and the using of an appropriate discount rate

For budgeting purposes, cash-flow projections are based on projected performance of individual cash-generating units.

The Environmental Protection and Energy Efficiency Fund ('the Fund') implemented administrative proceedings for the years 2008 and 2010 in which it adopted a final decision verifying that M San Grupa d.d., as the mandatory payer of the electric and electronic waste fee, paid HRK 6,527 thousand into the Fund.

Following the adoption of the final decisions corroborating the actual payment of the liabilities by M San Grupa, the Fund adopted supplemental rulings decisions in 2011 determining an additional difference regarding the fees calculated and paid in 2008 and 2010.

M San Grupa appealed against the subsequent rulings, and the appeal was acknowledged by the Ministry of Environmental Protection that upheld the impossibility to adopt the so-called supplemental rulings, but rather declared that the difference could have been determined only in renewed administrative proceedings.

The Fund founded the claimed outstanding difference on the interpretation of the rules and regulations under which exported electronic and electrical devices are also subject to the fee, regardless of the devices not being put into circulation on the territory of the Republic of Croatia. Subsequent to that, the Fund adopted a decision to renew the procedure of determining the waste management fee resulting in a reassessed fee, i.e. a fee increased by the amount pertaining to devices sold outside the territory of the Republic of Croatia.

### **28. RECEIVABLES FROM THE STATE AND OTHER INSTITUTIONS (CONTINUED)**

As a result of the new decision for the same period, there are two administrative rulings regulating one and the same legal matter differently. In the period from July to November 2014 M San Grupa d.d. filed new appeals pertaining to the year 2008, which were rejected. In October 2014 M San Grupa d.d. lodged an appeal against the new rulings applicable to 2010, which is still pending. On 24 December 2014 the enforced collection of cash of M San Grupa d.d. in the total amount of HRK 9,294 thousand took place on the grounds of all the new rulings.

Following the enforcement, M San Grupa d.d. initiated administrative proceedings with respect to 2008 with a motion to render the appellate ruling of the Ministry and the first-instance ruling of the Fund null and void and to effect the recovery of entire monetary claim on the following grounds:

- a) the challenged decisions of the Fund and of the Ministry violate the procedural regulations, i.e. the provisions of the general administrative procedure;
- b) the rulings adopted in the renewed proceedings determine a difference with respect to a matter already finally determined following the procedures implemented in respect of 2008 and 2010;
- c) the new rulings adopted contrary to the prescribed procedure, i.e. renewed procedures, encroached the finality of the administrative instruments from 2008, which is prohibited according to Art. 13 of the Act on the General Administrative Procedure which prohibits any encroachment of the already vested rights of the parties;
- d) that the Fund's right to reinstitute the case
- e) the claims from 2008 have expired under the statute of limitations, as they can no longer be determined in 2014.

For all the facts presented above, the Management Board expects the Administrative Court in Zagreb to invalidate the decisions of the Ministry and of the Fund and refund the enforced monetary claims to M San Grupa.

The situation regarding the year 2010 is similar to the one from 2008, whereby the Management Board considers the likelihood of the appeals being acknowledged not yet remote.

---

### 48. FINANCIAL INSTRUMENTS

#### 48.1 Capital risk management

The Group manages its capital to ensure that it will be able to continue as a going concern, while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The Group's capital consists of debt, which included borrowings disclosed in Notes 39 and 40, less cash and cash equivalents (the so-called net debt), and equity, which comprises share capital, reserves and retained earnings as reported in the statement of changes in equity and Notes 33, 34 and 35.

##### 48.1.1 Gearing ratio

Gearing ratio at the end of the reporting period:

|                                   | GROUP                 |                       | COMPANY               |                       |
|-----------------------------------|-----------------------|-----------------------|-----------------------|-----------------------|

#### 48.2 Foreign currency risk management

The Group undertakes certain transactions denominated in foreign currencies. Hence, exposures to exchange rate fluctuations arise.

The carrying amounts of the Group's foreign-currency denominated monetary assets and liabilities at the reporting date are provided in the table below:

| GROUP | Assets |        | Liabilities |         | Assets - Liabilities |           |
|-------|--------|--------|-------------|---------|----------------------|-----------|
|       | 2014   | 2013   | 2014        | 2013    | 2014                 | 2013      |
| EUR   | 81,986 | 60,631 | 480,668     | 481,407 | (398,682)            | (420,776) |
| USD   | 25,058 | 33,700 | 58,664      | 38,920  | (33,606)             | (5,220)   |
| CHF   | -      | -      | -           | 10      | -                    | (10)      |
| BAM   | -      | 1      | -           | -       | -                    | -         |
| GBP   | 31     | 29     | 1           | 553     | 30                   | (524)     |

| COMPANY | Assets |         | Liabilities |         | Assets – Liabilities |           |

|         | 2014   | 2013    | 2014        | 2013    | 2014                 | 2013      |
| EUR     | 76,491 | 142,238 | 451,648     | 444,218 | (375,157)            | (301,980) |
| USD     | 56,770 | 100,814 | 53,911      | 44,430  | 2,859                | 56,384    |
| BAM     | -      | -       | -           | -       | -                    | -         |
| CHF     | -      | 1       | -           | 10      | -                    | (9)       |
| GBP     | 31     | 30      | 1           | 519     | 30                   | (489)     |

##### 48.2.1 Foreign currency sensitivity analysis

The following table details the Group's sensitivity to a 10% increase and decrease of the Croatian kuna against the relevant currencies. 10% is the sensitivity rate used when reporting foreign currency risk internally to the Management Board and represents the Board's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for the change in the relevant foreign exchange rate. The sensitivity analysis includes external borrowings, as well as loans to foreign operations of the Group denominated in a currency that is not the currency of the lender or the borrower. A positive number below indicates an increase in profit and other equity where the Croatian kuna strengthens 1% against the relevant currency. For a 10% weakening of the Croatian kuna against the relevant currency, there would be an equal and opposite impact on the profit, and the balances below would be negative.

#### 48.3 Credit risk management

Credit risk is the risk of default by counterparty in settling its liability or contractual obligations to the Company and the Group, as a result of which the Group and the Company may incur financial losses. The Group and the Company have adopted procedures they apply in transacting with their customers and, where possible, they obtain payment security instruments to protect themselves from potential financial and default risks.

Trade receivables are continuously monitored so as to identify any potential risk of default and take appropriate measures. The Group and the Company monitor regularly their credit exposures to customers and revise the risk assessment at least once a year. The Group and the Company operate with a large number of customers from various industries and of various size as well as individuals with a specific type of credit risk. The Group and the Company have developed separate procedures for each of the groups of customers in order to ensure that credit risk is adequately managed.

## Notes to the consolidated and unconsolidated financial statements (continued)

For the year ended 31 December 2014

*(all amounts are expressed in thousands of kunas)*

---

### **48. FINANCIAL INSTRUMENTS (CONTINUED)**

#### **48.4 Interest risk management**

Since the Company and the Group use both fixed and variable rate loans, they are exposed to the interest rate risk. Most of the Company's and Group's loans bear interest at a fixed rate.

##### Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates at the reporting date. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the reporting date was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the interest expense of the Company as of 31 December 2014 would have changed by HRK 1,822 thousand (31 December 2013: HRK 1.980 thousand), and the Group as of 31 December 2014 would have changed by HRK 2,218 thousand (31 December 2013: HRK 2.349 thousand).

The Group's and Company's total borrowings at the reporting date amounted to HRK 443,619 thousand (31 December 2013: HRK 469.704 thousand) and HRK 364,399 thousand (31 December 2013: 396.053 thousand) respectively.

#### **48.5 Liquidity risk management**

Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements.

##### 48.5.1 Liquidity tables

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group and the Company can be required to pay. Disclosures of non-derivative financial assets and liabilities are necessary for understanding the manner in which the Group manages its liquidity risk, as it is managed on the basis of net amounts of financial assets and liabilities.

### 48. FINANCIAL INSTRUMENTS (CONTINUED)

#### 48.6. Fair value of financial instruments

The fair values of financial assets and financial liabilities are determined as follows:

- the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets is determined with reference to quoted market prices;
- the fair value of other financial assets and financial liabilities (excluding derivative instruments) is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments;

At 31 December 2014, the carrying amounts of cash, short-term deposits, receivables and short-term liabilities, accrued expenses and other financial instruments approximate their fair values due to the short-term maturity of these financial instruments.

The following table provides an analysis of financial instruments measured subsequently at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

| <b>At 31 December 2014</b>                 | <b>Level 1</b> | <b>Level 2</b> | <b>Level 3</b> | <b>Total</b> |

### 48. FINANCIAL INSTRUMENTS (CONTINUED)

#### 48.7 Market risk

Market risk is the risk that changes in market prices, exchange rates and interest rates will affect the income, investments or financial instruments of the Company. The objective of market risk management is to maintain the market risk exposure within acceptable limits, while optimising the result.

### 49. OPERATING LEASES

The Group leases business premises, offices, warehouses and vehicles. The lease terms range from 1 to 5 years, and most of the lease agreements are renewable on expiry.

The most significant leases included in the lease obligations comprise leases of business premises and warehouses.

The table below details the Group's and the Company's future operating lease payments:

|                 | <b>GROUP</b>  |               | <b>COMPANY</b> |              |
